

## Customized Self-Checkout Terminal

With us you can implement your ideas for tomorrow today.

## Customized Self-Checkout Terminal

Our strength is the development and manufacture of tailor-made solutions while meeting your target price.

### Do you have a precise idea of what functions your new self-checkout terminal should contain and what it should look like?

The implementation of your requirements and customer requests in an infinitive self-checkout terminal with our innovation and technology will inspire you and your customers. With a modular structure, it is possible to put together the

ALMEX POSbase S by yourself. You determine the scope of features, size, color and design.

Thanks to its flexible design, the SCO terminal fits into your individual concept in terms of efficiency and cost structure.

We are your partner when it comes to individual and universal solutions in the checkout area.
