

Innovative Solution for Ticket Sales

Easy to operate, service-friendly and perfectly protected against vandalism.

The next generation of ticket vending machines

Modern design meets easy operation and functionality. The *cashless* by ALMEX combines ticket sales, passenger information and user support in one single unit.

Ticket sales as well as information to passengers, also by videochat, are displayed by touchscreen interface. Payment can be done by banking and creditcards, also EMVCo and contactless e-ticketing media.
